FIRE PITS

Do's and Don't's

Municipal Code Section 6.04.040, #9

All open burning, bonfires, warming fires, and debris fires are prohibited within the Cambria CSD jurisdictional boundaries.

- Open wood burning **pits are not allowed**
- Open wood burning commercially manufactured devices **are not allowed**
- Open wood burning fires on the beach **are not allowed**

DO

- Use approved, non-combustible, gas powered, commercially built containers
- Keep fires small
- Containers require a non-combustible spark arrester screen at all openings with holes no larger than 1/4 inch in size
- Keep ground beneath container clear of combustible material for 10 feet in diameter
- Locate burn site a minimum of 10 feet away from combustibles
- Keep a garden hose nearby
- Completely extinguish fire after every use

DON'T

- Do not leave fire unattended
- Never use a fire pit indoors
- Do not ignite fires with chemicals such as gasoline, lighter fluid, or alcohol (use dry wood as kindling)

GRILLING SAFETY

Outdoor grilling is the one of the most popular ways to cook food, but a grill placed too close to anything that can burn is a fire hazard. They can be very hot, which can cause burn injuries. Follow these simple tips and you will be on the way to safe grilling.

SAFETY TIPS

- Propane and charcoal BBQ grills should only be used outdoors.
- The grill should be placed well away from the home, deck railings and out from under eaves and overhanging branches.
- Keep children and pets at least three feet away from the grill area.
- Keep your grill clean by removing grease or fat buildup from the grills and in trays below the grill.
- Never leave your grill unattended.
- Always make sure your gas grill lid is open before lighting it.

CHARCOAL GRILLS

- There are several ways to get the charcoal ready to use. Charcoal chimney starters allow you to start the charcoal using newspaper as a fuel.
- If you use a starter fluid, use only charcoal starter fluid. Never add charcoal fluid or any other flammable liquids to the fire.
- Keep charcoal fluid out of the reach of children and away from heat sources.
- There are also electric charcoal starters, which do not use fire.
- Be sure to use an extension cord for outdoor use.
- When you are finished grilling, let the coals completely cool before disposing of them in a metal container.

PROPANE GRILLS

- Check the gas tank hose for leaks before using it for the first time each year.
- Apply a light soap and water solution to the hose. A propane leak will release bubbles. If your grill has a gas leak, by smell or the soapy bubble test, and there is no flame, turn off the gas tank and grill. If the leak stops, get the grill serviced by a professional before using it again. If the leak does not stop, call 911.
- If you smell gas while cooking, immediately get away from the grill and call 911.
- Do not move the grill.
- If the flame goes out, turn the grill and gas off and wait at least 5 minutes before re-lighting it.

CAMBRIA COMMUNITY SERVICES DISTRICT

TO: Board of Directors

AGENDA NO. **5.C.**

FROM: John F. Weigold IV, General Manager

Meeting Date: October 21, 2021 Subject: Consideration of Authorizing the General Manager to Enter into a Service Agreement with Digital West for Telephone Service

RECOMMENDATIONS: Staff recommends that the Board of Directors authorize the General Manager to enter into a Service Agreement with Digital West for telephone service.

FISCAL IMPACT:

The fiscal year 2021/2022 budget includes \$18,825 for the district's telephone service. The District would recognize annual savings of approximately \$3,276 in using Digital West as the telephone service provider.

DISCUSSION:

Currently, the District pays \$767.76 a month, which is divided among the Administration, Fire, Water & Wastewater budgets, plus a Charter Spectrum Enterprise PRI Voice Service fee in the amount of \$381, three voice lines in the amount of \$39.99 per line, applicable taxes and fees, and a Gsolutionz customer service fee in the amount of \$200/hour with a half-hour minimum (as listed in the table below).

The CCSD's current telephone system lease ends with Gsolutionz on November 16, 2021, and the District currently has outdated IP Office phones and software that are not cloud-based. Per District Counsel's request and to satisfy the District's Purchasing Policy, staff requested quotations from three vendors and three proposals were received from Digital West, Charter Spectrum Enterprise and Elevate Unified Communications (Gsolutionz).

CCSD Phone Comparison List

Vendor	Cloud-based Phone System	Video & Voice Meeting Capatability	Customer Service (additional monthly fee)	Equipment Included	One Time Charges	Monthly Charges
Digital West	X	X	No Fee	Yes	\$0	\$1,196.00
Elevate Unified Communications (Gsolutionz)	X	X	X	Yes	\$4,316.24	\$894.43
Charter Spectrum Enterprise	X	X	No Fee	Yes	\$0	\$828.00

While all three vendors offer cloud-based systems, Digital West's proposal includes a cloud-based phone system that delivers significant business features and no installation or customer service fees. Digital West provides MetroVoice as an on-net service unlike most providers who deliver cloud phone services over the top of someone else's network (such as the Elevate

vendor). This on-net difference ensures that the voice calls on MetroVoice are prioritized over other data on the network and produces more reliable, secure, and clear call quality.

Digital West's service term is for a 36-month period at a monthly rate of \$1,196, plus applicable taxes & fees. By switching to Digital West, the District would save approximately \$273 (see the table below) a month by removing the Charter Spectrum Enterprise PRI voice service line and three voice lines and the CCSD would no longer pay for programming and customer service fees at \$200/hour with a half-hour minimum. Digital West currently works with and is recommended by our current information technology vendor, CIO Solutions. Over the years, the District has had numerous customer service issues with Charter Spectrum Enterprise and Gsolutionz/CIT, in addition to significant labor fees for reprogramming.

Current Phone Services with Charter Spectrum Enterprise & Gsolutionz/CIT	Monthly Amount	Annual Amount
PRI Voice Service (Charter Spectrum Enterprise)	\$ 381.00	\$ 4,572.00
Voice Line (Charter Spectrum Enterprise) 3 voice lines	\$ 119.97	\$ 1,439.64
Taxes & Fees Estimate	\$ 100.00	\$ 1,200.00
CIT Payment	\$ 767.76	\$ 9,213.12
Gsolutionz Programming/Customer Service Fees	\$ 200.00	\$ 2,400.00
Grand Total	\$ 1,568.73	\$ 18,824.76
Proposed Phone Services with Digital West		
MetroVoice with Digital West	\$ 1,196.00	\$ 14,352.00
Digital West Service Calls	\$ -	\$ -
Taxes & Fees Estimate	\$ 100.00	\$ 1,200.00
Removing Charter Spectrum Enterprise PRI voice service & 3 voice lines (above)	\$ -	\$ -
Installation of new phone system	\$ -	\$ -
Grand Total	\$ 1,296.00	\$ 15,552.00
Savings by Switching to Digital West	\$ 272.73	\$ 3,272.76

Digital West is locally owned and operated from San Luis Obispo and includes unlimited customer service support and a dedicated fiber connection to run the hosted phones at no cost. If approved, it is anticipated that the Service Agreement with Digital West would commence on November 15, 2021.

Staff recommends that the Board of Directors authorize the General Manager to enter into a Service Agreement with Digital West for new telephone service for the CCSD.

1.2 Service Orders. The purchase of Services shall be accomplished only through the negotiation and mutual execution and delivery of a Service Order memorializing the terms and conditions pursuant to which Provider shall provide the desired Services to Customer. Service Orders shall clearly specify the following: (i) the type of Service at issue (e.g., Internet access, data transport, VoIP, dark fiber, etc.); (ii) the location(s) at which the Service is to be provided (each, a “**Service Site**”); (iii) the initial term of the Service Order (the “**Initial Service Term**”); (iv) the pricing for the Service, including (a) the monthly recurring charges (“**MRC**”) for the Service, and (b) any non-recurring charges (“**NRC**”) associated with installation of the Service; and (v) any other terms or conditions specific to the particular Service Order. Depending on the location of the Service Site, in some instances Services may be provided by an Affiliate of Provider.

1.3 Additional Documents Comprising Agreement; Order of Precedence. The Service Level Agreements attached to these T&Cs as Exhibits (together, the “**SLA**”) constitute a part of these T&Cs. Customer’s use of any Services purchased pursuant to the Agreement will also be governed by Provider’s Acceptable Use Policy for Commercial Services (the “**AUP**”) which is posted on Provider’s website at <http://digitalwest.com/AUP>. Additional provisions that are applicable only to specific types of Services are contained in Provider’s Service-Specific Terms and Conditions (the “**Service-Specific T&Cs**”) which is posted on Provider’s website at <http://digitalwest.com/service-specific-terms>. In the event of a conflict between the provisions of any of the foregoing documents, the documents shall have the following order of precedence unless expressly stated otherwise in a particular Service Order: (i) these T&Cs (including the SLA); (ii) the applicable Service Order; (iii) the AUP; and (iv) the Service-Specific T&Cs.

ARTICLE 2 – TERM AND RENEWAL

The Initial Service Term of each Service Order shall be as specified in the Service Order. Upon expiration of the Initial Service Term of a Service Order, unless either Party terminates the Service Order by giving written notice of termination to the other Party not less than thirty (30) days prior to the end of the Initial Service Term, the Service Order will automatically renew for successive periods of one (1) year (each, a “**Renewal Term**”). During any Renewal Term for a Service Order, either Party may terminate the Service Order at the end of the then-current Renewal Term by giving written notice of termination to the other Party not less than thirty (30) days prior to the end of the then-current Renewal Term. The total period of time a Service Order is in effect is referred to as the “**Service Term**” for the Service Order at issue.

ARTICLE 3 – INSTALLATION, TESTING, ACCEPTANCE AND USE

3.1 Service Site; Demarcation Points; Equipment. Unless a Service Site is within Provider’s control, Customer shall provide Provider with access to the Service Site as and to the extent reasonably necessary for Provider to install, test, inspect and maintain the Service(s) ordered during the Service Term. Unless otherwise stated in a Service Order: (i) Provider shall be solely responsible for the provision, operation and maintenance of all equipment and facilities (the “**Provider Equipment**”) necessary to connect Provider’s network facilities to the Customer demarcation point(s) at the Service Site (the “**Demarcation Point(s)**”); and (ii) Customer shall be solely responsible for the provision, operation and maintenance of all equipment and facilities (the “**Customer Equipment**”) from the Demarcation Point(s) to Customer’s internal network. Unless a Service Site is within Provider’s control, Customer shall be responsible for maintaining appropriate conditions at the Service Site, including HVAC, electrical power,

and security. Title to the Provider Equipment shall at all times remain vested in Provider. Customer shall not re-arrange, disconnect, tamper with, attempt to repair, or otherwise interfere with the Provider Equipment, nor shall Customer permit any third party to do so.

3.2 Testing, Acceptance and Service Commencement Date. Provider shall use commercially reasonable efforts to install the Services consistent with Provider's usual and customary installation timeline, and shall endeavor to keep Customer regularly informed regarding installation progress. Provider shall notify Customer when a Service has been installed and is ready for testing and use. Customer may, at Customer's option, participate in Provider's final testing of the Service. For Services having a committed bandwidth, the committed information rate shall be measured at the Ethernet layer and includes the Ethernet frame itself. The Initial Service Term for the Service at issue shall commence on the date on which the Service has been installed, tested and is active and available for use by Customer (the "**Service Commencement Date**"). Customer shall have a period of five (5) business days after the Service Commencement Date in which Customer may notify Provider that the Service at issue is not functioning properly. If Customer notifies Provider of problems with a Service pursuant to this Section 3.2, Provider shall investigate and correct same and the Service Commencement Date shall be revised to be the first calendar day after the date on which Provider has corrected the problems. Unless Customer delivers notification of problems to Provider within the time period set forth above, Customer shall be deemed to have accepted the Service at issue and to have confirmed that the Service has been installed and is functioning properly as of the Service Commencement Date.

3.3 No Sub-Licensing; Non-Compete. Any Services provided to Customer pursuant to the Agreement are for the sole benefit of Customer. Customer shall not grant to any third party the right to use any of the Services, regardless of whether such grant were to take the form of a license, sublicense, lease, sublease, or any other form. Nor shall Customer use the Services for commercial purposes that are competitive with Provider's business (e.g., use the Services to sell Internet access services, point-to-point data transport services, VoIP services, etc., to third parties within Provider's service area).

ARTICLE 4 – PAYMENT AND BILLING

4.1 Invoicing. All amounts owed by Customer to Provider under the Agreement shall be collectively referred to as "**Fees**." Provider shall begin billing Customer for the MRC applicable to a Service as of the Service Commencement Date. Invoices shall be delivered monthly, and shall be paid by Customer within thirty (30) days of receipt. Fixed Fees shall be billed in advance and usage-based Fees shall be billed in arrears. Fixed fees for any partial month shall be pro-rated. For Services having an NRC, unless otherwise stated in the Service Order, Provider shall invoice Customer for the NRC upon full-execution of the Service Order. Except for amounts disputed in good faith by Customer pursuant to Section 4.2 below, past due amounts shall bear interest in the amount of 1.5% per month, or the highest amount allowed by law, whichever is lower.

4.2 Disputed Invoices. If Customer in good faith disputes any portion of a Provider invoice, Customer shall pay the undisputed portion of the invoice and submit written notice to Provider regarding the disputed amount, which notice shall include documentation supporting the alleged billing error (each such notice, a "**Fee Dispute Notice**"). A Fee Dispute Notice must be submitted to Provider within thirty (30) days from the date the invoice at issue is received by Customer. Customer waives the right to dispute any Fees not disputed within such thirty (30) day period. The Parties shall negotiate in good faith to attempt to resolve any such disputes within sixty (60) days after Customer's delivery of the applicable Fee Dispute Notice. Fee disputes unresolved within that time period shall be resolved by the mediation and arbitration procedures set forth in Sections 11.2 and 11.3 below.

4.3 Applicable Taxes. All charges for Services set forth in Service Orders are exclusive of Applicable Taxes (as defined below). Except for taxes based on Provider's net income or taxes for which Customer possesses a valid exemption certificate, Customer shall be responsible for payment of all applicable taxes and regulatory fees, however designated, that arise in any jurisdiction, including, without limitation, value added, consumption, sales, use, gross receipts, excise, access, bypass, or other taxes, fees, assessments, duties, charges or surcharges, that are imposed on, incident to, or based upon the provision, sale, or use of the Service(s) (collectively "**Applicable Taxes**"). The Applicable Taxes will be individually identified on invoices. If Customer is entitled to an exemption from any Applicable Taxes, Customer is responsible for presenting Provider with a valid exemption certificate (in a form reasonably acceptable to Provider). Provider will give prospective effect to any valid exemption certificate provided in accordance with the preceding sentence.

ARTICLE 5 – DEFAULT AND REMEDIES

5.1 Customer Default. Each of the following shall constitute a default by Customer under the Agreement (each a separate event of “**Default**”): (i) if Customer fails to pay any undisputed Fees when due, the failure of Customer to cure same within ten (10) days after receiving written notice from Provider regarding such failure to pay; (ii) if Customer fails to comply with any other material provision of the Agreement, the failure of Customer to cure same within thirty (30) days of receiving written notice from Provider regarding such non-compliance; or (iii) if Customer files or initiates proceedings, or has proceedings initiated against it, seeking liquidation, reorganization or other relief (such as the appointment of a trustee, receiver, liquidator, custodian or other such official) under any bankruptcy, insolvency or other similar law, and the same is not dismissed within sixty (60) days.

5.2 Remedies for Customer Default. In the event of a Default by Customer under the Agreement, Provider may, at its option: (i) suspend any applicable Services until such time as the Customer Default has been corrected (provided, however, that any suspension shall not relieve Customer’s on-going obligation to pay Provider all Fees and other amounts due under the Agreement as if such suspension of Services had not taken place); (ii) terminate the applicable Service(s) and/or the applicable Service Order(s); (iii) after the occurrence of any two Customer Defaults in any twelve (12) month period, terminate all Service Orders entered into with Customer; and/or (iv) pursue any other remedy available to Provider under the Agreement or applicable law. In the event of early termination for Customer Default pursuant to this Section 5.2, Customer shall pay to Provider the Termination Charge described in Section 6.3 below.

5.3 Provider Default. Each of the following shall constitute a Default by Provider under the Agreement: (i) if Provider fails to comply with any material provision of the Agreement other than provisions of the SLA, the failure by Provider to cure same within thirty (30) days of receiving written notice from Customer regarding such non-compliance; or (ii) Provider files or initiates proceedings, or has proceedings initiated against it, seeking liquidation, reorganization or other relief (such as the appointment of a trustee, receiver, liquidator, custodian or other such official) under any bankruptcy, insolvency or other similar law, and the same is not dismissed within sixty (60) days.

5.4 Remedies for Provider Default. In the event of a Default by Provider under the Agreement Customer may, at its option: (i) terminate the applicable Service(s) and/or the applicable Service Order(s); and/or (ii) pursue any other remedy available to Customer under the Agreement or applicable law. Early termination by Customer shall be accomplished by providing termination notice to Customer’s account manager and to the notice address specified in Article 13 below. In the event of early termination for Provider Default pursuant to this Section 5.4, Provider shall reimburse Customer for any pre-paid, unused monthly service Fees attributable to the terminated Service(s) and/or Service Order(s), and Customer shall have no further liability to Provider for the terminated Service(s) and/or Service Order(s). Early termination by Customer pursuant to this Section 5.4 shall not relieve Customer of its obligations to pay all Fees incurred prior to the early termination date.

ARTICLE 6 – EARLY TERMINATION & PORTABILITY

6.1 Early Termination for Customer Convenience. Customer may, at any time after executing a Service Order, discontinue one or more of the Services ordered and/or terminate the Service Order by giving at least thirty (30) days’ advance written notice to Customer’s account manager and to the notice address specified in Article 13 below. Any early termination of a Service pursuant to this Section 6.1 shall be referred to as “**Termination for Customer Convenience.**” In the event of Termination for Customer Convenience, Customer shall pay to Provider the Termination Charge described in Section 6.3 below.

6.2 Early Termination for Default. In accordance with Article 5 above, either Party may elect to terminate one or more Service Orders prior to the scheduled expiration date in the event of an uncured Default by the other Party.

6.3 Termination Charge. In the event of Termination for Customer Convenience pursuant to Section 6.1 above, or termination for Customer Default pursuant to Section 5.2 above, Customer shall pay a Termination Charge to Provider. The “**Termination Charge**” shall equal the sum of the following: (i) all unpaid amounts for Services actually provided prior to the termination date; (ii) any portion of the NRC for the terminated Service(s) that has not yet been paid to Provider; (iii) with respect to off-net Services only, any documented cancellation or termination charges or fees imposed on Provider by any third party in connection with the early termination of the Services; and (iv) one hundred percent (100%) of all remaining MRCs Customer was to pay Provider for the Service during the remainder of the applicable Service Term. If incurred, the Termination Charge will be due and payable by Customer within thirty (30) days after the termination date of the Service at issue. Customer acknowledges

that the calculation of the Termination Charge is a genuine estimate of Provider's actual damages and is not a penalty.

6.4 Portability; Substitution of Services. At any time during the Service Term of a Service Order, Customer may elect to substitute new Services for then-existing Services. In such event, Provider will waive the Termination Charge associated with the termination of the then-existing Services as long as: (i) the Fees payable to Provider in connection with the substitute Services are equal to or greater than the Fees of the discontinued Services; (ii) Customer commits to retain the substitute Services for a period equal to or greater than the remainder of the Service Term for the discontinued Services; (iii) Customer pays all applicable installation and other NRCs, if any, for provision of the substitute Services; and (iv) Customer reimburses Provider for all reasonable and documented engineering, installation and construction costs associated with the discontinued Services, calculated on a time and materials basis, that have not already been recovered by Provider by the time of the substitution.

ARTICLE 7 – CONFIDENTIAL INFORMATION

7.1 Definition of Confidential Information. “**Confidential Information**” shall mean all information, including the Agreement, regarding the telecommunications needs of Customer and the Services that Provider offers under the Agreement which is disclosed by one Party (“**Disclosing Party**”) to the other Party (“**Receiving Party**”), to the extent that such information is marked or identified as confidential or proprietary or would be reasonably deemed confidential or proprietary given the circumstances surrounding its disclosure. All written or oral pricing and contract proposals, as well as network maps or diagrams exchanged between the Parties shall be deemed Confidential Information, whether or not so designated. The fact that Customer is a customer of Provider shall not be deemed Confidential Information and may be freely disclosed by either Party. Information shall not be deemed Confidential Information if (i) it is independently developed by or for the Receiving Party, (ii) it is lawfully received by the Receiving Party free of any obligation to keep it confidential, (iii) it becomes generally available to the public other than by breach of the Agreement, or (iv) it was known to the Receiving Party prior to the Disclosing Party's disclosure of same.

7.2 Obligations Regarding Confidential Information. Confidential Information is the property of the Disclosing Party and shall be returned to the Disclosing Party upon request. The Receiving Party shall hold all Confidential Information in confidence. The Receiving Party: (i) shall use such Confidential Information only for the purposes of performing its obligations and/or enforcing its rights under the Agreement; (ii) shall reproduce such Confidential Information only to the extent necessary for such purposes; (iii) shall restrict disclosure of such Confidential Information to employees, contractors, advisors or consultants that have a need to know for such purposes (with disclosure to contractors, advisors and consultants being limited to contractors, advisors and consultants that have signed a non-disclosure agreement to protect the Confidential Information of third parties); (iv) shall not disclose Confidential Information to any third party without prior written approval of the Disclosing Party except as expressly provided in the Agreement or as required by law, by court order, by administrative order of an agency having jurisdiction, or in the enforcement of its rights under the Agreement; and (v) shall use at least the same degree of care (in no event less than reasonable care) as it uses with regard to its own proprietary or confidential information to prevent the disclosure, unauthorized use or publication of Confidential Information. In the event a Receiving Party is required to disclose Confidential Information of the Disclosing Party pursuant to law, court order or administrative order of an agency having jurisdiction, the Receiving Party will, if such notice is permitted by law, notify the Disclosing Party of the required disclosure with sufficient time for the Disclosing Party to seek judicial relief from the required disclosure, and reasonably cooperate with the Disclosing Party in any efforts the Disclosing Party may take to obtain protective measures in respect to the required disclosure. The Parties agree that breach of this Article 7 may cause irreparable injury for which monetary damages are not an adequate remedy; accordingly, each Party may seek injunctive relief and any other available equitable remedies to enforce the provisions of this Article 7.

ARTICLE 8 – LIMITATION OF LIABILITY

8.1 General Limitations. Provider shall not be liable for any loss or damage occasioned by a Force Majeure Event. Except as expressly provided to the contrary elsewhere in the Agreement, Provider's aggregate liability for any and all causes and claims arising under the Agreement, whether based in contract, tort, warranty or otherwise shall be limited to the lesser of: (i) the actual direct damages sustained by Customer; or (ii) an amount equivalent to the total MRC received by Provider from Customer for the Service(s) at issue during the preceding twelve (12) month period.

8.2 Service Level Agreement. Should Provider fail, on any one or more occasions, to deliver any one or more Services to Customer in accordance with all of the terms and conditions contained in the applicable SLA, Customer's sole and exclusive remedy for such failure shall be as set forth in the SLA. No such failure shall be considered a Default by Provider under the Agreement.

8.3 No Special Damages. EXCEPT FOR (i) EACH PARTY'S CONFIDENTIALITY OBLIGATIONS UNDER ARTICLE 7 ABOVE, (ii) EACH PARTY'S THIRD-PARTY INDEMNIFICATION OBLIGATIONS UNDER ARTICLE 9 BELOW, AND (iii) CLAIMS ARISING FROM A PARTY'S INTENTIONAL MISCONDUCT, IN NO EVENT SHALL EITHER PARTY BE LIABLE TO THE OTHER PARTY FOR ANY INDIRECT, INCIDENTAL, SPECIAL, CONSEQUENTIAL, EXEMPLARY OR PUNITIVE DAMAGES WHATSOEVER, ARISING OUT OF OR INCURRED IN CONNECTION WITH A PARTY'S PERFORMANCE OR FAILURE TO PERFORM UNDER THIS AGREEMENT, INCLUDING, BY WAY OF EXAMPLE AND NOT BY WAY OF LIMITATION, LOST PROFITS, LOST REVENUE, LOSS OF GOODWILL, LOSS OF ANTICIPATED SAVINGS, LOSS OF BUSINESS OPPORTUNITY, LOSS OF DATA OR COST OF PURCHASING REPLACEMENT SERVICES, EVEN IF THE OTHER PARTY HAD BEEN ADVISED, KNEW OR SHOULD HAVE KNOWN OF THE POSSIBILITY OF SUCH SPECIAL DAMAGES.

8.4 Disclaimer of Warranties. EXCEPT AS EXPRESSLY SET FORTH IN THIS AGREEMENT, PROVIDER MAKES NO WARRANTIES OR REPRESENTATIONS, EXPRESS, IMPLIED, STATUTORY OR OTHERWISE, EITHER IN FACT OR BY OPERATION OF LAW, AS TO THE DESCRIPTION, QUALITY, MERCHANTABILITY, COMPLETENESS, FITNESS FOR A PARTICULAR PURPOSE OR USE OF ANY SERVICES PROVIDED PURSUANT TO THIS AGREEMENT.

8.5 Assumption of Risk. PROVIDER HAS NO CONTROL OVER AND EXPRESSLY DISCLAIMS ANY LIABILITY OR RESPONSIBILITY WHATSOEVER FOR THE CONTENT OF ANY INFORMATION TRANSMITTED OR RECEIVED BY CUSTOMER THROUGH THE SERVICES, SERVICE INTERRUPTIONS ATTRIBUTABLE TO CUSTOMER'S NETWORK, ANY CUSTOMER EQUIPMENT FAILURES, OR ANY OTHER SUCH CAUSES, AND CUSTOMER USES THE SERVICES AT CUSTOMER'S OWN RISK. CUSTOMER SHALL BE RESPONSIBLE FOR THE SECURITY, CONFIDENTIALITY AND INTEGRITY OF INFORMATION CUSTOMER TRANSMITS OR RECEIVES USING ANY SERVICES.

8.6 Disclaimer Regarding HIPAA Compliance. If and to the extent Customer is a covered entity under the Health Insurance Portability and Accountability Act of 1996 ("HIPAA"), and needs its business associates to comply with HIPAA, Provider hereby notifies Customer that Provider's operations are not compliant with HIPAA. Provider's operations are generally exempt from HIPAA pursuant to the conduit exception. However, if and to the extent the Services provided pursuant to any Service Order would not qualify for the conduit exception, Provider's operations with respect to the Services are not HIPAA complaint. Provider will not execute a business associate agreement under HIPAA.

ARTICLE 9 –INDEMNIFICATION FOR THIRD PARTY CLAIMS

9.3 Indemnification Procedures for Third-Party Claims. Should any third-party claim arise under this Article 9, the indemnified Party shall promptly notify the indemnifying Party of same in writing, and shall take such action as may be necessary to avoid default or other adverse consequences in connection with such claim. The indemnifying Party shall have the right to select counsel and to control the defense and settlement of such claim; provided, however, that the indemnified Party shall be entitled to participate in the defense of such claim and to employ counsel at its own expense to assist in handling the claim, and provided further, that the indemnifying party shall not take any action in defense or settlement of the claim that would negatively impact the indemnified Party without the consent of the indemnified Party. The indemnified Party shall reasonably cooperate with the indemnifying Party in the defense of the third-party claim, including making its files and personnel reasonably available to the indemnifying Party, all at the cost and expense of the indemnifying Party.

ARTICLE 10 – FORCE MAJEURE EVENTS

Neither Party shall be liable for any delay in or failure of performance hereunder (other than Customer's payment obligations under Article 4) due to causes beyond such Party's reasonable control including, but not limited to, acts of God, fire, flood, earthquake, ice storms, wind storms, or other severe weather events, explosion, vandalism, cable cut, terrorist acts, insurrection, riots or other civil unrest, national or regional emergency, unavailability of rights-of-way, a governmental authority's failure to timely act, inability to obtain equipment, material or other supplies due to strike, lockout or work stoppage, or any law, order, regulation, direction, action or request of any civil or military governmental authority (each, a "**Force Majeure Event**"). If the delay in performance caused by the Force Majeure Event exceeds thirty (30) days, either Party may terminate the Agreement or the applicable Service Order(s) immediately on written notice to the other Party, without incurring any liability in connection with such termination.

ARTICLE 11 – DISPUTE RESOLUTION

All discussions occurring and documents exchanged pursuant to Sections 11.2 and 11.3 below are confidential and inadmissible for any purpose in any legal proceeding involving the Parties; provided that evidence that is otherwise admissible or discoverable shall not be rendered inadmissible or non-discoverable as a result of its use in the negotiation or mediation process.

11.2 Negotiations. Should any Dispute arise, either Party may give the other Party written notice of the Dispute (each, a "**Dispute Notice**"). The Parties shall use good faith efforts to resolve the Dispute through negotiation within thirty (30) days of the date on which the Dispute Notice is delivered. Any judicial action arising in connection with the Agreement shall be in the Superior Court of the State of California in and for San Luis Obispo County, or in the Federal District Court for the Central District of California, Western Division, as applicable. ARTICLE 15 – MISCELLANEOUS

15.1 Entire Agreement; Interpretation. The Agreement constitutes the entire agreement between the Parties regarding the subject matter hereof, and supersedes any and all prior oral or written agreements between the Parties regarding the subject matter contained herein. The Agreement may only be modified or supplemented by an instrument executed by an authorized representative of each Party. The Agreement and each of the terms and provisions of it are deemed to have been explicitly negotiated by the Parties, and the language in all parts of the Agreement shall, in all cases, be construed according to its fair meaning and not strictly for or against either of the Parties. If any provision of the Agreement or the application thereof to any person or circumstance shall, for any reason and to any extent, be found invalid or unenforceable, the remainder of the Agreement and the application of that provision to other persons or circumstances shall not be affected thereby, but shall instead continue in full force and effect.

15.2 No Waiver. No failure by either Party to enforce any rights hereunder will constitute a waiver of such rights. Nor shall a waiver by either Party of any particular breach or default constitute a waiver of any other breach or default or any similar future breach or default. Provider's acceptance of any payment under the Agreement will not constitute an accord or any other form of acknowledgement or satisfaction that the amount paid is in fact the correct amount, and acceptance of a payment will not release any claim by Provider for additional amounts due from Customer.

15.3 Attorneys' Fees. If any proceeding is brought by a Party to enforce or interpret any term or provision of the Agreement, the substantially prevailing Party in such proceeding will be entitled to recover, in addition to all other relief as set forth in the Agreement, that Party's reasonable attorneys' and experts' fees and expenses.

15.4 Relationship; No Third Party Beneficiaries. The Agreement is a commercial contract between Provider and Customer and the relationship between the Parties is that of independent contractors. Nothing in the Agreement creates any partnership, principal- agent, employer-employee or joint venture relationship between the Parties or any of their Affiliates, agents or employees for any purpose. The Agreement is for the sole benefit of Provider and Customer and is not intended to confer any rights on any other person; there are no third party beneficiaries of the Agreement.

If the target MTTR is not met for a particular circuit in a given calendar month, and Customer receives a Service from Digital West on the circuit at issue, then Customer shall be entitled to remedies set forth in the table below, which must be claimed as described in this SLA.

Target MTTR	Actual MTTR	Customer Credit as % of MRC for the applicable Circuit
6 hr MTTR	≤ 6 Hrs.	Target Met
	> 6 Hrs. to 10 Hrs.	5%
	> 10 Hrs. to 18 Hrs.	10%
	> 18 Hrs.	20%

3. PACKET DELIVERY/PACKET LOSS SLA

The Digital West Network is designed to provide **no greater than 0.1% Packet Loss**. If the Packet Loss target is not achieved in a given calendar month, Customer shall be entitled to the remedies set forth in the table below, which must be claimed as described in this SLA. Customer credits for average monthly Packet Loss are calculated on an individual circuit basis, and the amount of any credit is based on the portion of MRC allocable to the affected circuit.

Target Maximum Packet Loss	Actual Packet Loss (lower end – upper end)	Customer Credit as % of MRC for the applicable Circuit
≤ 0.1% Packet Loss	0% - 0.1%	Target Met
	> 0.1% - 0.4%	5%
	> 0.4% - 0.7%	10%
	> 0.7% - 1.0%	25%
	> 1.0%	50%

4. LATENCY SLA

The Digital West Network is designed to provide a monthly average one-way Latency not to exceed the following:

- For “Local Market” distances of ≤ 75 miles = 10 ms
- For “Inter-Market” distances of between 76 – 750 miles = 20 ms
- For “Long-Haul” distances of > 750 miles = 50 ms

If the applicable Latency target is not achieved in a given month and Digital West does not remedy the problem within fifteen (15) calendar days from the date on which Customer opens a Trouble Ticket with the Digital West CNOC regarding excessive Latency, Customer shall be entitled to the remedies set forth in the table below, which must be claimed as described in this SLA.

Target Local Market Latency	Target Inter-Market Latency	Target Long-Haul Latency	Actual One-Way Latency (lower end - upper end)	Customer Credit as % of MRC for the applicable Circuit
10 ms or less	20 ms or less	50 ms or less	≤ Target Latency	Target Met
			> Target up to 8 ms over Target	5%
			> 8 ms up to 15 ms over Target	10%
			> 15 ms up to 20 ms over Target	25%
			> 20 ms over Target	50%

5. NETWORK JITTER SLA

The Digital West Backbone Network is designed to have a monthly average one-way Network Jitter not to exceed the following:

- For Local Market distances of ≤ 75 miles = 2 ms
- For Inter-Market distances of between 76 – 750 miles = 5 ms
- For Long-Haul distances of > 750 miles = 15 ms

If the applicable Network Jitter target is exceeded in a given calendar month, Customer will be entitled to a credit of 1/30th of the MRC of the affected circuit for that month for each full 1ms of Network Jitter above the Network Jitter target set forth above. Any such credit must be claimed as described in this SLA.

6. CHRONIC OUTAGE

If Customer experiences a Chronic Outage with respect to a Service, Customer shall have the right to elect either of the following remedies, which must be claimed as described in this SLA: (i) substitute a different Service or a different circuit/path for the Service and circuit/path that experienced the Chronic Outage without incurring any Termination Charge or installation fees; or (ii) terminate the affected Service for the circuit/path that experienced the Chronic Outage without incurring any Termination Charge.

7. DEFINITIONS

For purposes of this SLA the following terms shall have the meanings set forth below.

“Availability” means the ability of Customer to exchange Ethernet packets with the Digital West Network via Customer’s router port. Availability is measured in minutes of uptime over the calendar month during which the Services are Available:

$$\begin{array}{lcl} \% \text{ Availability} & = & \frac{(\text{Total Minutes in Month} - \text{Total Minutes of Unavailability in Month})}{\text{Total Minutes in Month}} \\ \text{(per calendar month)} & & \end{array}$$

For Ethernet Transport Services and VoIP Services, Availability is calculated at the individual circuit level, between Digital West's Backbone Network and the Customer's router port. For Dedicated Internet Access Services, Availability is calculated from the Customer's router port through the Digital West Network to the handoff point for the Internet. Dedicated Internet Access Service Availability does not include the availability of the Internet itself or any particular Internet resource. Periods of Excused Outage are not included in Availability metrics.

"Chronic Outage" means a series of three (3) or more Service Outages affecting the same Service on the same circuit during a given calendar month, each of which has an actual time to restore "TTR" in excess of WAVE's targeted MTTR.

"Digital West Backbone Network" means Digital West's core fiber backbone that connects Digital West's POPs and regional hubs.

"Digital West's Commercial Network Operations Center" or "Digital West's CNOC" means Digital West's commercial network operations center, which is staffed 24x7x365 and can be reached at: 805-548-8000.

"Digital West Network" means all equipment, facilities and infrastructure that Digital West uses to provide Services to Customer, and includes Customer's access port. The "Digital West Network" does not include Customer owned or leased equipment (unless leased from Digital West), or any portion of Customer's local area network after the demarcation point for the Services provided by Digital West.

"Emergency Maintenance" means Digital West's efforts to correct conditions on the Digital West Network that are likely to cause a material disruption to or outage in services provided by Digital West and which require immediate action. Emergency Maintenance may degrade the quality of the Services provided to Customer, including possible outages. Any such outages are Excused Outages that will not entitle Customer to credits under this SLA. Digital West may undertake Emergency Maintenance at any time Digital West deems necessary and will provide Customer with notice of such Emergency Maintenance as soon as commercially practicable under the circumstances.

"Excused Outage" means any disruption to or unavailability of Services caused by or due to (i) Scheduled Maintenance, (ii) Emergency Maintenance, or (iii) circumstances beyond Digital West's reasonable control, such as, by way of example only, Force Majeure Events, acts or omissions of Customer or Customer's agents, licensees or end users, electrical outages not caused by Digital West, or any failure, unavailability, interruption or delay of third-party telecommunications network components the use of which are reasonably necessary for WAVE's delivery of the Services to Customer.

"Jitter" or "Network Jitter" refers to a variation in the interval at which packets are received, also described as the variability in Latency as measured in the variability over time of the packet Latency across a network. Jitter is calculated as an aggregate average monthly metric measured by Digital West across the Digital West Backbone Network between a sample of Digital West POPs. Local access loops are not included. Periods of Excused Outage are not included in Jitter metrics.

"Latency" means how much time it takes, measured in milliseconds, for a packet of data to get from one designated point on Digital West's Network to another designated point on Digital West's Network. Latency is calculated as an aggregate average monthly metric measured by Digital West across the Digital West Backbone Network between a sample of Digital West POPs. Local access loops are not included. Periods of Excused Outage are not included in Latency metrics.

"Mean Time to Restore" or "MTTR" means the average time required to restore the Digital West Network to a normally operating state in the event of an Outage. MTTR is calculated on a circuit basis, as a monthly average of the time it takes Digital West to repair all Service Outages on the specific circuit. MTTR is measured from the time an Outage related Trouble Ticket is generated by the Digital West CNOC until the time the Service is again Available. The cumulative length of Service Outages per circuit is divided by the number of Trouble Tickets in the billing month to derive the monthly MTTR per circuit:

$$\text{MTTR in Hrs (per calendar month)} = \frac{\text{Cumulative Length of Service Outages Per Month Per Circuit}}{\text{Total Number of Trouble Tickets for Service Outages Per Month Per Circuit}}$$

Periods of Excused Outage are not included in MTTR metrics.

“Outage” means a disruption in the Service making the Service completely unavailable to Customer that is not an Excused Outage. For purposes of SLA-related credits and remedies, the period of unavailability begins when an Outage-related Trouble Ticket is opened by the Customer and ends when the connection is restored, as measured by Digital West. Unavailability does not include periods of Service degradation, such as slow data transmission.

“Packet Loss” means the unintentional discarding of data packets in a network when a device (e.g., switch, router, etc.) is overloaded and cannot accept any incoming data. Packet Loss is calculated as aggregate average monthly metric measured by Digital West across the Digital West Backbone Network between a sample of Digital West POPs. Local access loops are not included. Periods of Excused Outage are not included in Packet Loss metrics.

“Scheduled Maintenance” means any maintenance of the portion of the Digital West Network to which Customer’s router is connected that is performed during a standard maintenance window (1:00AM – 6:00AM Local Time). Customer will be notified via email at least forty-eight (48) hours in advance of any scheduled maintenance that is likely to affect Customer’s Service.

“Trouble Ticket” means a trouble ticket generated through the Digital West CNOC upon notification of a Service-related problem. Trouble Tickets may be generated by Digital West pursuant to its internal network monitoring process, or by Customer’s reporting of a problem to the Digital West CNOC. In order for Customer to be eligible for credits or remedies under this SLA, Customer must contact the Digital West CNOC and open a Trouble Ticket regarding the problem; Trouble Tickets generated internally by Digital West will not provide a basis for Customer credits or Chronic Outage remedies.

8. CLAIMING CREDITS AND REMEDIES

8.1 Requesting SLA Related Credits and Chronic Outage Remedies. To be eligible for any SLA-related Service credit or Chronic Outage remedy, Customer must be current in its financial obligations to Digital West. Credits are exclusive of any applicable taxes charged to Customer or collected by Digital West.

- (i) To claim SLA-related Service credits, Customer must do the following:
 - (a) Open a Trouble Ticket with the Digital West CNOC within twenty-four (24) hours of the occurrence giving rise to the claimed credit(s);
 - (b) Submit a written request for the credit(s) to Customer’s account manager within fifteen (15) days after the end of the calendar month in which the incident giving rise to the credit(s) occurred; and
 - (c) Provide the following documentation when requesting the credit(s):
 - Customer name and contact information;
 - Trouble Ticket number(s);
 - Date and beginning/end time of the claimed Outage or failed SLA metric;
 - Circuit IDs for each pertinent circuit/path; and
 - Brief description of the characteristics of the claimed Outage or failed SLA metric.
- (ii) To claim remedies for a Chronic Outage under this SLA, Customer must do the following:
 - (a) Open a Trouble Ticket regarding the Chronic Outage with the Digital West CNOC within seventy-two (72) hours of the last Outage giving rise to the claimed remedy;
 - (b) Submit a written request for a remedy regarding the Chronic Outage to Customer’s account manager within thirty (30) days of the end of the calendar month in which the Chronic Outage occurred; and
 - (c) Provide the following documentation when requesting the remedy:
 - Customer name and contact information;

- Type of remedy requested (e.g., substitution or termination);
- Trouble Ticket numbers for each individual Outage event;
- Date and beginning/end time of each of the claimed Outages;
- Trouble Ticket number for the Chronic Outage at issue;
- Circuit IDs for each pertinent circuit/path; and
- Brief description of the characteristics of the claimed Chronic Outage.

If Customer fails to timely submit, pursuant to the procedure described in this Section, a request for any SLA-related credit or Service Outage remedy for which Customer might otherwise be eligible under this SLA, Customer shall be deemed to have waived its right to receive such credit or remedy. The credits and remedies provided by this SLA are Customer's sole and exclusive remedies for any and all claims or complaints regarding the quality and/or availability of any of the Services to which this SLA applies.

8.2 Digital West's Evaluation of Claims. All claims for SLA-related credits and remedies for Chronic Outages are subject to evaluation and verification by Digital West. Upon receiving a claim for SLA-related credit and/or remedies for Chronic Outage, Digital West will evaluate the claim and respond to Customer within thirty (30) days. If Digital West requires additional information in order to evaluate Customer's claim, Digital West will notify Customer by email specifying what additional information is required. Customer will have fifteen (15) days from the date on which it receives Digital West's request for additional information in which to provide the requested information to Digital West. If Customer fails to provide the additional information within that time period, Customer will be deemed to have abandoned its claim. Digital West will promptly notify Customer of Digital West's resolution of each Customer claim. If Customer's claim for an SLA-related credit or Chronic Outage remedy is rejected, the notification will specify the basis for the rejection. If Customer's claim for a credit is approved, Digital West will issue the credit to Customer's account, to appear on the next monthly invoice. If Customer's claim for a Chronic Outage remedy is approved, Digital West will notify Customer of the date on which the requested substitution or termination will occur. Digital West's determination regarding whether or not an SLA has been violated shall be final.

8.3 Limitations and Exclusions. Total credits for any given calendar month shall not exceed 100% of the MRC for the affected Service. Credits shall not be cumulative with respect to any given incident; instead, if multiple SLAs are violated during a single incident, Customer shall be entitled only to the largest applicable credit amount. This SLA will not apply and Customer will not be entitled to any credit under this SLA for any impairment of Services that is caused by or due to any of the following: (i) the acts or omissions of Customer, its agents, employees, contractors, or Customer's end users, or other persons authorized by Customer to access, use or modify the Services or the equipment used to provide the Services, including Customer's use of the Service in an unauthorized or unlawful manner; (ii) the failure of or refusal by Customer to reasonably cooperate with Digital West in diagnosing and troubleshooting problems with the Services; (iii) scheduled Service alteration, maintenance or implementation; (iv) the failure or malfunction of network equipment or facilities not owned or controlled by Digital West or Digital West's Affiliates; (v) Force Majeure Events; (vi) Digital West's inability (due to no fault of Digital West) to access facilities or equipment as reasonably required to troubleshoot, repair, restore or prevent degradation of the Service; (vii) Digital West's termination of the Service for cause, or as otherwise authorized by the Agreement; or (viii) Digital West's inability to deliver Service by Customer's desired due date.

Standard Terms and Conditions for Enterprise Services

Service Level Agreement for Dark Fiber & Wavelength Services

This Service Level Agreement for Dark Fiber & Wavelength Services (this “SLA”) is a part of Digital West Networks, Inc.’s (“Digital West’s”) Standard Terms and Conditions for Enterprise Services (“T&Cs”). Unless otherwise provided in the applicable Service Order, this SLA applies to the following types of Services provided by Digital West pursuant to the T&Cs: (i) dark fiber services, and (ii) wavelength services.

1. AVAILABILITY SLA

Digital West’s dark fiber paths and wavelengths are designed to provide a target Availability of **at least 99.9%** per calendar month. If the Availability target is not met with respect to a given dark fiber path or wavelength in a given calendar month, Customer will be entitled to a credit in the amount set forth below, which must be claimed as described in this SLA. Customer credits for Outages of dark fiber or wavelength Services are calculated on an individual path basis, and the amount of any credit is based on the portion of MRC allocable to the affected Service.

Duration of Unavailability	Customer Credit as % of MRC for the applicable Service
Less than 45 minutes	Target Met
45 Min. up to 8 hours	5%
> 8 hours up to 16 hours	10%
> 16 hours up to 24 hours	20%
> 24 hours	35%

2. MEAN TIME TO RESTORE (“MTTR”) SLA

In the event of Outages in the Services, Digital West’s CNOC is designed to provide a MTTR of **no greater than 6 hours**. If the target MTTR is not met for a particular dark fiber path or wavelength in a given calendar month, and Customer receives a Service from Digital West on the path at issue, then Customer shall be entitled to remedies set forth in the table below, which must be claimed as described in this SLA.

Target MTTR	Actual MTTR	Customer Credit as % of MRC for the applicable Service
6 hr MTTR	≤ 6 Hrs.	Target Met
	> 6 Hrs. to 10 Hrs.	5%
	> 10 Hrs. to 18 Hrs.	10%
	> 18 Hrs.	20%

3. CHRONIC OUTAGE

If Customer experiences a Chronic Outage with respect to a Service, Customer shall have the right to elect either of the following remedies, which must be claimed as described in this SLA: (i) substitute a different Service or a different path for the Service that experienced the Chronic Outage without incurring any Termination Charge or installation fees; or (ii) terminate the affected Service for the path that experienced the Chronic Outage without incurring any Termination Charge.

4. DEFINITIONS

For purposes of this SLA the following terms shall have the meanings set forth below.

“Availability” means the dark fibers or the wavelength at issue is available to and accessible by Customer at the specified locations, is capable of transmitting signals and can otherwise be used by Customer. Availability does not involve the quality of data transmission. Periods of Excused Outage are not included in the Availability metric. Digital West does not monitor the use or availability of dark fiber or wavelength Services, thus any Outage must be reported to Digital West by Customer.

“Chronic Outage” means a series of three (3) or more Service Outages affecting the same Service on the path during a given calendar month, each of which has an actual time to restore “TTR” in excess of Digital West’s targeted MTTR.

“Digital West Network” means all equipment, facilities and infrastructure that Digital West uses to provide Services to Customer, and includes Customer’s access port. The “Digital West Network” does not include Customer owned or leased equipment (unless leased from Digital West), or any portion of Customer’s local area network after the demarcation point for the Services provided by Digital West.

“Emergency Maintenance” means Digital West’s efforts to correct conditions on the Digital West Network that are likely to cause a material disruption to or outage in Services provided by Digital West and which require immediate action. Emergency Maintenance may degrade the quality of the Services provided to Customer, including possible outages. Any such outages are Excused Outages that will not entitle Customer to credits under this SLA. Digital West may undertake Emergency Maintenance at any time Digital West deems necessary and will provide Customer with notice of such Emergency Maintenance as soon as commercially practicable under the circumstances.

“Excused Outage” means any disruption to or unavailability of Services caused by or due to (i) Scheduled Maintenance, (ii) Emergency Maintenance, or (iii) circumstances beyond Digital West’s reasonable control, such as, by way of example only, Force Majeure Events, acts or omissions of Customer or Customer’s agents, licensees or end users, electrical outages not caused by Digital West, or any failure, unavailability, interruption or delay of third-party telecommunications network components the use of which are reasonably necessary for Digital West’s delivery of the Services to Customer.

“Mean Time to Restore” or “MTTR” means the average time required to restore the Service(s) to a normally operating state in the event of an Outage. MTTR is calculated on a path/route basis, as a monthly average of the time it takes Digital West to repair all Service Outages on the specific path/route. MTTR is measured from the time Customer opens an Outage related Trouble Ticket is with the Digital West CNOC until the time the Service is again Available. The cumulative length of Service Outages per circuit is divided by the number of Trouble Tickets in the billing month to derive the monthly MTTR per circuit:

$$\begin{array}{lcl} \text{MTTR in Hrs} & = & \frac{\text{Cumulative Length of Service Outages Per Month Per Circuit}}{\text{Total Number of Trouble Tickets for Service Outages Per Month Per Circuit}} \\ \text{(per calendar month)} & & \end{array}$$

Periods of Excused Outage are not included in MTTR metrics.

“Outage” means a disruption in the Service making the Service completely unavailable to Customer that is not an Excused Outage. For purposes of SLA-related credits and remedies, the period of unavailability begins when an Outage-related Trouble Ticket is opened by the Customer and ends when the connection is restored, as measured by Digital West. Unavailability does not include periods of Service degradation, such as slow data transmission.

“Scheduled Maintenance” means any maintenance of the portion of the Digital West Network to which Customer’s demarc is connected that is performed during a standard maintenance window (1:00AM – 6:00AM Local Time). Customer will be notified via email at least forty-eight (48) hours in advance of any scheduled maintenance that is likely to affect Customer’s Service.

“Trouble Ticket” means a trouble ticket generated through the Digital West CNOC upon notification of a Service-related problem. In order for Customer to be eligible for credits or remedies under this SLA, Customer must contact the Digital West CNOC and open a Trouble Ticket regarding the problem.

5. CLAIMING CREDITS AND REMEDIES

5.1 Requesting SLA Related Credits and Chronic Outage Remedies. West's determination regarding whether or not an SLA has been violated shall be final.

5.3 **Limitations and Exclusions.** Total credits for any given calendar month shall not exceed 100% of the MRC for the affected Service. Credits shall not be cumulative with respect to any given incident; instead, if multiple SLAs are violated during a single incident, Customer shall be entitled only to the largest applicable credit amount. This SLA will not apply and Customer will not be entitled to any credit under this SLA for any impairment of Services that is caused by or due to any of the following: (i) the acts or omissions of Customer, its agents, employees, contractors, or Customer's end users, or other persons authorized by Customer to access, use or modify the Services or the equipment used to provide the Services, including Customer's use of the Service in an unauthorized or unlawful manner; (ii) the failure of or refusal by Customer to reasonably cooperate with Digital West in diagnosing and troubleshooting problems with the Services; (iii) scheduled Service alteration, maintenance or implementation; (iv) the failure or malfunction of network equipment or facilities not owned or controlled by Digital West or Digital West's Affiliates; (v) Force Majeure Events; (vi) Digital West's inability (due to no fault of Digital West) to access facilities or equipment as reasonably required to troubleshoot, repair, restore or prevent degradation of the Service; (vii) Digital West's termination of the Service for cause, or as otherwise authorized by the Agreement; or (viii) Digital West's inability to deliver Service by Customer's desired due date.

Hi Haley,

Apologies I have been in and out of the office for the last few weeks. OK here is a rundown on your fiber network which you have AMAZING pricing.

2850 Burton Dr Fia 100Mbps \$650 **200Mbps FIA would be \$819 if you wanted to upgrade.**

4GB EPLAN \$255

PRI Current phone service \$420 **This would go away and would be replaced with our hosted voice solution which would come in at \$828 per month for 27 phones. The 27 phones are Polycom VVX250 this does include the phone and any wiring needed. If we walk the location and determine the wiring needs and final features the price could lower just a bit. All of this is free install. We have a major advantage to all other carriers we can control the quality of the phone calls because we control the fiber network. IF you buy a solution like this from someone else they CANNOT control the quality of your phones calls. It would be good to get together with your manager and go over why this is. Even your IT company cannot control the quality of the phone calls. Only our solution guarantees the call quality.**

5500 Heath Ln 1GB EPLAN \$400

2021 Rodeo Grounds RD 1GB EPLAN \$128

1000 Main St 1GB EPLAN

1316 Tamsen St 1GB EPLAN \$215

CAMBRIA COMMUNITY SERVICES DISTRICT

TO: Board of Directors

AGENDA NO. **5.D.**

FROM: John F. Weigold IV, General Manager

Meeting Date: October 21, 2021 Subject: Consideration of Adoption of Resolution 39-2021 Amending the District Salary Schedule

RECOMMENDATIONS: Staff recommends that the Board of Directors consider adoption of Resolution 39-2021 to amend the CCSD salary schedule.

FISCAL IMPACT:

The FY 2021/2022 budget includes the wage increases approved by the Board for Management & Confidential Employees (MCE), Service Employees International Union, Local 620 (SEIU) and International Associated Firefighters, Local 4635 (IAFF) represented employees and the State of California minimum wage increase for Reserve Firefighters.

Included in the IAFF represented employees is the firefighter position, which will be funded by the newly awarded SAFER grant. A budget adjustment will be required as part of the first quarter report, to recognize the SAFER grant funding and the associated salary and benefit costs.

DISCUSSION:

The Board approved a three-year wage increase for MCE on November 19, 2020. The second-year increase is effective November 19, 2021, and includes a salary increase of 2%.

The Board approved the SEIU Memorandum of Understanding (MOU) on January 16, 2020. This SEIU MOU includes a five-year wage increase ranging from 1.25%-1.5% and 1.0% equity adjustment for Water, Wastewater and Maintenance classifications. The third year of the wage increase is 1.5%, plus certain classes receive an equity adjustment of 1% and is effective January 29, 2022.

The Board approved the IAFF MOU on March 12, 2020. This IAFF MOU includes a five-year wage increase ranging from 3%-4%. The third year of the wage increase is 3.75% and is effective January 1, 2022. As noted above, the IAFF represented employees includes the SAFER grant funded firefighter position.

The State of California began a 6-year minimum wage increase schedule starting on January 1, 2017 and ending on January 1, 2022, to raise the minimum wage to \$15.00 per hour, for businesses with 26 or more employees. This will be the sixth year and final year of minimum wage increases for the Reserve Firefighter classifications, which are effective January 1, 2022.

Staff recommends the Board adopt Resolution 39-2021 amending the District salary schedule for the previously negotiated wage increases of MCE, SEIU and IAFF represented employees.

Meeting Date: October 21, 2021	Subject:	Consideration of Adoption of Resolution 40-2021 Regarding the Continued Local State of Emergency Declaration
--------------------------------	----------	--------------------------------------------------------------------------------------------------------------

RECOMMENDATIONS:

It is recommended that the Board of Directors consider adoption of Resolution 40-2021 declaring a continued local state of emergency in the Cambria Community Services District due to the coronavirus pandemic.

FISCAL IMPACT:

The District continues to work with customers challenged with paying for their water and wastewater utility services, due to the impact of the COVID-19. Listed below is a recap of the billing cycle, the number & dollar amount of late customers, as of October 8, 2021:

Billing Cycle	Late #	\$	Pmt Pln	\$

Jul-Aug 2021	0	-	6	4,026.01
	115	39,749.40	8	4,372.48

The number and dollar amount of late customers for the July-August 2021 billing cycle was not available at the time of writing this report. The overall fiscal impacts and any potential FEMA grant reimbursement associated with the COVID-19 are unknown at this time.

DISCUSSION:

As the Board is aware, the State and County of San Luis Obispo have adopted a number of executive orders declaring a public health emergency and imposing restrictions on the general population to help control the spread of the COVID-19 virus. The Board of Directors adopted Resolution 52-2020 on November 19, 2020, which requires the Board to determine whether a local state of emergency continues to exist once a month. As the COVID-19 virus continues to ravage the State and country, it is recommended that the Board adopt Resolution 40-2021 declaring a continued local state of emergency.

Meeting Date: October 21, 2021	Subject: Consideration of Adoption of Resolution 41-2021 Authorizing the Continuance of Remote Teleconference Meetings of the Legislative Bodies of the Cambria Community Services District Pursuant to Government Code Section 54953(e)(3)
--------------------------------	---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

RECOMMENDATIONS:

It is recommended that the Board of Directors consider adoption of Resolution 41-2021 to continue authorizing remote teleconference meetings of the legislative bodies of the Cambria Community Services District Section 54953(e)(3).

FISCAL IMPACT:

The fiscal impact of continuing to implement the teleconferencing requirement, for CCSD Board, Standing Committees and PROS Commission regular and special meetings includes AGP Video expense and continuing the Zoom subscription. An estimate of cost of expenses for a regular and special Board meeting are listed below. AGP Video does not attend and support Standing Committee and PROS Commission meetings.

Teleconference Meeting Expense – AGP Video & Zoom	
Contract Rate - Meeting (up to 3 hours)	\$350.00
Overtime Rate	\$125.00
SLO-SPAN Streaming	\$200.00
Zoom Subscription – Monthly	\$389.90
Grand Total per meeting	\$1,064.90

DISCUSSION:

At the September 24, 2021 Board of Directors meeting the Board of Directors adopted Resolution 37-2021 authorizing remote teleconference meetings of the legislative bodies of the Cambria Community Services District in accordance with newly adopted Government Code Section 54953(e) that was added to the Brown Act by AB 361.

Government Code Section 54953(e) permits legislative bodies, when there is a proclaimed State of Emergency declared by the Governor pursuant to Government Code Section 8625, to make a determination to authorize meeting remotely via teleconferencing as a result of the emergency. To do so, a resolution needs to be adopted in which the legislative body finds that meeting in person would present imminent risks to the health or safety of attendees, or that State or local officials have imposed or recommended measures to promote social distancing.

The initial resolution is valid for thirty (30) days after teleconferencing for the first time pursuant to Government Code section 54953(e). If the State of Emergency remains active after that 30 day period, the local agency may act to renew its resolution and continue authorizing remote teleconferenced meetings by passing another resolution which includes findings that the State of Emergency declaration remains active, the local agency has reconsidered the circumstances of the State of Emergency, and the local agency has either identified: A) ongoing, direct impacts to the ability to meet safely in-person, or B) active social distancing measures as directed by relevant state or local officials.

Resolution 37-2021, adopted on September 24, 2021, included findings and was based upon a determination that as a result of the proclaimed State of Emergency in California due to the COVID-19 pandemic, and its continued spread in San Luis Obispo County and Cambria through the Delta variant of SARS-CoV-2, which is more transmissible than prior variants of the virus, may cause more severe illness, and that even fully vaccinated individuals can spread the virus to others, holding meetings in person would present imminent risks to the health or safety of attendees.

Resolution 37-2021 became effective immediately and remained in effect for thirty (30) days after teleconferencing for the first time pursuant to Government Code section 54953(e). In order to continue to hold remote teleconferenced meetings in November, the Board of Directors will need to adopt a subsequent resolution in accordance with Government Code section 54953(e)(3) to extend the time during which the legislative bodies of the Cambria Community Services District may continue to teleconference without compliance with paragraph (3) of subdivision (b) of Government Code Section 54953. Since the circumstances that led to adoption of Resolution 37-2021 have not changed, Resolution 41-2021 has been prepared for Board consideration.

A RESOLUTION OF THE BOARD OF DIRECTORS
OF THE CAMBRIA COMMUNITY SERVICES DISTRICT MAKING
FINDINGS IN ACCORDANCE WITH GOVERNMENT
CODE SECTION 54953(e)(3), AUTHORIZING THE CONTINUANCE OF
REMOTE TELECONFERENCE MEETINGS OF THE LEGISLATIVE BODIES
OF THE CAMBRIA COMMUNITY SERVICES DISTRICT

WHEREAS, on March 4, 2020 Governor Newsom declared a State of Emergency in the State of California pursuant to Government Code Section 8625 as a result of the threat of the Coronavirus (COVID-19) pandemic, which declaration continues to be in effect; and

WHEREAS, on September 16, 2021 Governor Newsom signed AB 361, which added subsection (e) to Government Code section 54953 of the Brown Act, and makes provision for remote teleconferencing participation in meetings by members of a legislative body, without compliance with the requirements of Government Code section 54953(b)(3), subject to the existence of certain conditions; and

WHEREAS, a required condition of Government Code Section 54953(e) is that a state of emergency is declared by the Governor pursuant to Government Code section 8625, proclaiming the existence of conditions of disaster or of extreme peril to the safety of persons and property within the State caused by conditions as described in Government Code section 8558; and

WHEREAS, in addition to the Governor's proclamation of a State of Emergency, on March 23, 2020 the Board of Directors ("Board") adopted Resolution 09-2020 declaring a State of Emergency to exist in the Cambria Community Services District as a result of the Coronavirus pandemic; and has continued to make determinations that a local State of Emergency continues to exist in the Cambria Community Services District as a result of the Coronavirus pandemic; and

WHEREAS, there has been a significant increase in COVID-19 cases in San Luis Obispo County due primarily to the Delta variant of SARS-CoV-2, the virus that causes COVID-19. Emerging evidence indicates that the Delta variant is far more transmissible than prior variants of the virus, may cause more severe illness, and can be spread even by fully vaccinated individuals; and

WHEREAS, on September 24, 2021 the Board of Directors adopted Resolution 37-2021, finding that the requisite conditions exist for the legislative bodies of the Cambria Community Services District to conduct remote teleconference meetings without compliance with paragraph (3) of subdivision (b) of section 54953; and

WHEREAS, as a condition of extending the use of the provisions found in section 54953(e), the Board of Directors must reconsider the circumstances of the State of Emergency that exists in the District, and the Board of Directors has done so; and

WHEREAS, the Board of Directors now desires to adopt a Resolution finding that the requisite conditions exist for the legislative bodies of the Cambria Community Services District, as defined in the Brown Act, to continue to conduct remote teleconference meetings without compliance with paragraph (3) of subdivision (b) of Government Code section 54953.

NOW, THEREFORE, BE IT RESOLVED by the Board of Directors of the Cambria Community Services District as follows:

1. The above recitals are true, correct and are incorporated herein by this reference.
2. In accordance with the requirements of Government Code Section 54953(e)(3), the Board of Directors of the Cambria Community Services District hereby finds and determines that it has reconsidered the circumstances of the State of Emergency and that the State of Emergency continues to exist and to directly impact the ability of the members to meet safely in person due to the COVID-19 pandemic, and its continued spread in San Luis Obispo County and Cambria through the Delta variant of SARS-CoV-2, which is far more transmissible than prior variants of the virus, may cause more severe illness, and that even fully vaccinated individuals can spread the virus to others, and therefore holding meetings in person would present imminent risks to the health or safety of attendees.
3. The General Manager and legislative bodies of the Cambria Community Services District are hereby authorized and directed to continue to take all actions necessary to carry out the intent and purpose of this Resolution including, continuing to conduct open and public remote teleconferencing meetings in accordance with the requirements of Government Code section 54953(e) and other applicable provisions of the Brown Act.
4. This Resolution shall take effect immediately upon its adoption and shall be effective for thirty (30) days after its adoption, subject to being extended for an additional 30 day period by the Board of Directors adoption of a subsequent resolution in accordance with Government Code section 54953(e)(3) to further extend the time during which the legislative bodies of the Cambria Community Services District may continue to teleconference without compliance with paragraph (3) of subdivision (b) of Government Code section 54953.

Resolution 41-2021 was adopted at a regular meeting of the Cambria Community Services District on October 21, 2021.

Meeting Date: October 21, 2021

Subject: Consideration to Adopt Resolution 42-2021 Authorizing Applicant's Agent Designation for the California Governor's Office of Emergency Services

RECOMMENDATIONS:

Staff recommends the Board of Directors adopt Resolution 42-2021 authorizing applicant's agent designation for the California Governor's Office of Emergency Services.

FISCAL IMPACT:

The adopted fiscal year 2021/2022 budget includes \$104,265, for permanent storm damage repairs. The total amount of eligible storm damage disaster recovery funding is currently unknown.

DISCUSSION:

The January-February 2021 rain storms damaged and flooded several District owned facilities and equipment. This storm damage resulted in immediate repairs being needed during fiscal year 2020/2021 and permanent repairs in fiscal year 2021/2022. Staff submitted estimated storm damage costs to the San Luis Obispo County Office of Emergency Services (SLO-OES) in February 2021 and has been awaiting approval of storm damage recovery. On August 31, 2021, SLO-OES was notified that California State Disaster Assistance was approved for the January-February 2021 storms.

The State of California requires a designation of applicant's agent resolution for the purpose of obtaining certain federal financial assistance under P.L. 93-288 as amended by the Robert T. Stafford Disaster Relief and Emergency Assistance Act of 1988, and/or state financial assistance under the California Disaster Assistance Act.

Staff recommends the Board of Directors adopt Resolution 42-2021 authorizing applicant's agent designation for the California Governor's Office of Emergency Services, which allows staff to proceed with the storm damage claim process.

CAMBRIA COMMUNITY SERVICES DISTRICT

TO: Board of Directors

AGENDA NO. **6.B.**

FROM: John F. Weigold, IV, General Manager
Timothy Carmel, District Counsel

Meeting Date: October 21, 2021

Subject: Discussion and Consideration of
Introduction of Ordinance 04-2021
Adding Chapter 6.09, Mandatory
Organic Waste Disposal Reduction, to
the Cambria Community Services
District Code to Comply with the
Requirements of SB 1383

RECOMMENDATIONS:

It is recommended that the Board of Directors discuss, consider, and introduce Ordinance 04-2021 adding Chapter 6.09, Mandatory Organic Waste Disposal Reduction, to the Cambria Community Services District Code by title only and waive further reading in order to comply with the requirements of Senate Bill 1383 (SB 1383).

FISCAL IMPACT:

There is no direct fiscal impact as a result of this item. Under the proposed ordinance, implementation and enforcement would be the responsibility of District staff, as explained below; however, it is anticipated that many of the tasks will be delegated to and handled by the San Luis Obispo Integrated Waste Management Authority (IWMA). The IWMA assesses a solid waste management fee on refuse haulers to fund their activities. With regard to fees and rates, IWMA has advised of the following:

Public Resources Code Section 42652.5 authorizes local jurisdictions to collect reasonable and necessary fees to recover the costs of implementing SB 1383 regulations. Regarding fee adjustments, there are 3 different fee increases, or new fees, that will need to be identified and approved for inclusion in the franchise hauler's rate structure, all of which the final amounts and scheduling for implementation are not known at this time as each is still being identified and finalized:

1. Collection rates will need to be increased to add the cost of SB 1383 activities undertaken by the franchise hauler to comply with the regulations.
2. The IWMA fee that is on the garbage bill as a separate line item (currently 2%), will need to increase for the IWMA costs associated with implementing SB 1383. The IWMA Board approved the 1.25% fee increase in June 2021, but due to subsequent actions taken the SLO County Board of Supervisors regarding the IWMA JPA membership in July 2021, that previous fee increase action is under review and is expected to change.
3. The District SB 1383 fee will need to be added to the franchise hauler agreement during negotiations (like the AB 939 fee in the current agreement) for District staff time associated with SB 1383 implementation and compliance.

Once these three fees are fully identified, the District will assess the need to go through a Prop 218 process for a rate adjustment resulting from SB 1383 implementation.

DISCUSSION:

Background and Overview

The Cambria Community Services District provides solid waste services pursuant to Government Code Section 61100(c), and Mission Country Disposal is the District's franchisee that provides solid waste collection services to the community. Government Code Section 61060(b) provides the District with the authority "To adopt, by ordinance, and enforce rules and regulations for the administration, operation, and use and maintenance of the facilities and services listed in Part 3 (commencing with Section 61100)." The Board of Directors is now being asked to consider the introduction of Ordinance 04-2021 adding Chapter 6.09, Mandatory Organic Waste Disposal Reduction, to the Cambria Community Services District Code in order to comply with the requirements of SB 1383.

SB 1383 was signed into law on September 19, 2016, to require a reduction of organic waste disposal to landfills from 2014 levels by 75% and increase edible food recovery by 20%, by 2025. SB 1383 is the most significant waste reduction mandate to be adopted in the State of California in the last 30 years and requires all jurisdictions in the State that provide solid waste collection and disposal services to implement a mandatory organic recycling ordinance by January 1, 2022. This legislation requires all businesses, residents, and multi-family apartments to have access to recycling programs that capture food scraps, landscaping waste, and other organic waste materials in order to reduce the production of methane gas. This law has significant policy and legal implications for State and local governments, including cities, counties and special districts that provide solid waste services.

In accordance with SB 1383, the California Department of Resources Recycling and Recovery (CalRecycle), which is the State Department tasked with administering California's waste and recycling programs, developed prescriptive regulations to achieve the State's outlined organic waste disposal goals by 2025. In November 2020, CalRecycle released the final regulations for SB 1383.

On January 1, 2022, CalRecycle's regulations will become enforceable, and will require each jurisdiction to adopt a mandatory recycling ordinance. SB 1383 allows entities to take an educational and non-punitive approach to enforcement for the first two years of the ordinance being in effect (2022 and 2023). Taking an educational approach will allow the District and its franchise waste hauler, Mission Country Disposal, to work with Cambria residents and businesses to inform them of the requirements. Under this regulatory enforcement program, the enforcing agency, CalRecycle will have discretion to determine the level of penalty necessary to remedy any given violation by jurisdictions, but can impose penalties of up to \$10,000 per day against a jurisdiction if this law is not complied with. Demonstrated good faith efforts and progress towards compliance will likely result in fewer penalties.

Under the new State mandates, each resident and business must subscribe to an organic waste collection service that either "source-separates" the waste (e.g., separate bins), or transports all unsegregated waste to a facility that recovers 75% of the organic content collected from the system. This law puts the onus on local jurisdictions to enforce waste reduction through various means, including, but not limited to: inspections/audits of residential and commercial refuse

containers; facilitation of agreements between commercial edible food generators (e.g., schools, hospitals, large restaurants, and large grocery stores) and food recovery organizations and providers to ensure that recoverable food is diverted and not put into the waste stream; conducting education and outreach; and District procurement of recyclable and recovered organic products.

As noted, the District is required to enact an ordinance codifying these regulations. Monitoring and education must begin in 2022, and enforcement actions must start January 1, 2024. The State is leaving it to the discretion of the local agency to determine what forms of enforcement actions to impose, but suggests first providing educational materials, then issuing a notice of violation, and finally imposing penalties. The State's suggested penalties, incorporated into the draft ordinance, include a base penalty of \$50-\$100 for a first violation, \$100-\$200 for a second violation, and \$250-\$500 for a third violation. The proposed Ordinance allows for the District to evaluate each situation individually and allows the District, at its discretion, to consider the nature, circumstances, and severity of the violations, the violator's ability to pay, as well as other factors outlined in the Ordinance.

IWMA Coordination and Implementation

Given the complexity of SB 1383 and its requirements, the San Luis Obispo County Integrated Waste Management Authority has taken the lead for its member agencies to provide for the implementation of SB 1383. The IWMA has retained a consulting firm, HF&H, who has worked with the IWMA member agencies to draft amendments to their solid waste franchise agreements to address SB 1383, and also prepared a draft model SB 1383 ordinance for San Luis Obispo County agencies. This model ordinance has been used to create the proposed new Chapter 6.09 in the Cambria Community Services District Municipal Code. It should be noted that HF&H had previously been retained by CalRecycle to develop Statewide SB 1383 model documents, including franchise agreements, enforcement ordinances and procurement policies for compost, renewable gas, and paper.

The IWMA is also expected to be the District's and other member agencies "designee" and have delegated to it tasks, as permitted by CalRecycle's regulations, to carry out various requirements under SB 1383. Accordingly, the District will prepare an authorizing document outlining which activities the District will be assigning to the IWMA on its behalf for execution by both parties. HF&H will also be assisting IWMA member agencies with project management and implementation support.

This delegation has also been provided for in the draft amended franchise agreement and in the new proposed Ordinance. The delegated tasks include: education and outreach monitoring, inspection, and record keeping programs; establishing, administering, and implementing the edible food recovery requirements; coordinating with CalRecycle and any other State or federal entities in assessing and ensuring compliance with the CalRecycle procurement and pollution reduction targets for each agency; monitoring and education, including, but not limited to, monitoring compliance through route reviews and evaluations, determining the applicability of waivers, and issuing educational notices where necessary and/or appropriate; and required reporting to CalRecycle. Accordingly, the franchise agreement amendment terms and ordinances have been developed to harmonize the language related to SB 1383 countywide, to the greatest degree possible, in order to provide for coordination between jurisdictions, franchisees and the IWMA.

Franchise Agreement, Rates and Fees

The District has also been working with HF&H on an amendment to the solid waste franchise agreement with Mission Country Disposal and it is expected that staff will bring that amendment to the Board for its consideration in the near future, once negotiation have been completed.

1089 (g) Compliance Deadline Extension Considerations

Exhibit A

1090 District may extend the compliance deadlines set forth in a Notice of Violation
 1091 issued in accordance with this Section if it finds that there are extenuating
 1092 circumstances beyond the control of the respondent that make compliance within
 1093 the deadlines impracticable, including the following:

1094 (1) Acts of God such as earthquakes, wildfires, flooding, and other
 1095 emergencies or natural disasters;

1096 (2) Delays in obtaining discretionary permits or other government agency
 1097 approvals; or,

1098 (3) Deficiencies in Organic Waste recycling infrastructure or Edible Food
 1099 Recovery capacity and the District is under a corrective action plan with
 1100 CalRecycle pursuant to 14 CCR Section 18996.2 due to those deficiencies.

1101 (h) Appeals Process

1102 Persons receiving an administrative citation containing a penalty for an
 1103 uncorrected violation may request a hearing to appeal the citation. A hearing will
 1104 be held only if it is requested within the time prescribed and consistent with any
 1105 applicable procedures for appeals of administrative citations. Evidence may be
 1106 presented at the hearing. The District will appoint a hearing officer who shall
 1107 conduct the hearing and issue a final written order.

1108 (i) Education Period for Non-Compliance

1109 Beginning January 1, 2022 and through December 31, 2023, District or its
 1110 Designee will conduct Inspections, Route Reviews or waste evaluations, and
 1111 Compliance Reviews, depending upon the type of regulated entity, to determine
 1112 compliance, and if District or its Designee determines that Generator, Responsible
 1113 Party, Self-Hauler, hauler, Tier One Commercial Edible Food Generator, Food
 1114 Recovery Organization, Food Recovery Service, or other entity is not in
 1115 compliance, it shall provide educational materials to the entity describing its
 1116 obligations under this Chapter and a notice that compliance is required by January
 1117 1, 2022, and that violations may be subject to administrative civil penalties starting
 1118 on January 1, 2024.

1119 (j) Civil Penalties for Non-Compliance

1120 Beginning January 1, 2024, if the District determines that a Generator,
 1121 Responsible Party, Self-Hauler, hauler, Tier One or Tier Two Commercial Edible
 1122 Food Generator, Food Recovery Organization, Food Recovery Service, or other
 1123 entity is not in compliance with this Chapter, it shall document the noncompliance
 1124 or violation, issue a Notice of Violation, and take Enforcement Action pursuant to
 1125 this Section, as needed.

CAMBRIA COMMUNITY SERVICES DISTRICT

TO: Board of Directors

AGENDA NO. **7.B.**

FROM: John F. Weigold, IV, General Manager

Meeting Date: October 21, 2021

Subject: General Manager's Report

GENERAL MANAGER:

The District continues its mission of providing water, wastewater treatment, emergency response, facilities, and administrative services. The District worked through a power outage on October 12th, which affected all departments in some fashion, however all backup generators functioned as prescribed so there was little impact on District operations. In addition to the daily operations of the Cambria Community Services District (CCSD), the following is an update on some of our current ongoing projects and activities:

Water Conservation

Conservation efforts continue to pay dividends. Our usage has “flattened the curve” in our well levels, so thank you to the entire community for your continued conservation efforts.

Regulatory Compliance

The District continues to provide all required regulatory reporting on or ahead of schedule.

Skatepark

We expect to receive the final report from Spohn Ranch, our skatepark design contractor, by the date of this Board meeting. All engineering reports and assessments have been received by the designer and the company is putting the finishing touches on its report.

I appointed our District Engineer, Ray Dienzo, to the role of project manager for this project, as well as for the East Ranch restroom project. Ray will be meeting with San Luis Obispo County planners at the end of October to have a preliminary planning discussion for the skatepark project, so that the District can better understand the requirements from the County should the CCSD Board decide to proceed with construction.

Grants

Our Congressional Community Funding Project for \$375,000 for refurbishing our two Stuart Street water tanks, sponsored by Congressman Salud Carbajal, is awaiting final consideration by Congress. It is part of the infrastructure bill that was passed by the House, and is now awaiting consideration by the Senate.

Electric Vehicle (EV) Charging Station

The EV charging station at the Veterans Hall is still in the permitting process. There were some corrections requested by San Luis Obispo County Planning Department during the building review, so the plan was sent back to our contractor's engineers to make the changes. The plan was resubmitted to the County on October 6th. The EV station application for the East Village restroom location is pending contract amendment approval by the County for use of their parking lot.

HUMAN RESOURCES:

COVID-19

There were no extraordinary actions taken by the General Manager this month related to the COVID-19 pandemic, as authorized by Resolutions 09-2020 and 52-2020.

As COVID-19 cases surge in San Luis Obispo County and hospitals face extreme demands on their capacity, the County of San Luis Obispo Public Health Department issued a Health Officer Order requiring masking in all indoor public places. The order went into effect on September 1, 2021 (12:01 a.m.) and applied to those who are vaccinated as well as to those who are not. The Cambria Community Services District is continuing to follow the County of San Luis Obispo Health Department Order and all CCSD employees, regardless of vaccination status, are required to wear a mask in all indoor public places. The District is continuing to implement the following policies and procedures for added safety and health protection:

- At a minimum, District staff is cleaning and disinfecting commonly touched surfaces in all vehicles and apparatus at the beginning and end of the day.
- At a minimum, District staff is cleaning and disinfecting commonly touched surfaces in all CCSD buildings at the beginning and end of the day.
- All CCSD employees are regularly washing hands or using hand sanitizer.
- All CCSD employees are required to wear a mask in all indoor places.
- All CCSD employees are provided with masks, hand sanitizer and wipes.
- All CCSD employees are allowed to get COVID-19 vaccination appointments during their work day and are allowed to use district vehicles to go to and from their appointments.
- All Fire Department personnel are wearing personal protective equipment (PPE) gear/N95 masks on all emergency responses and are regularly washing hands/using hand sanitizer before, during and after each emergency.
- All Fire Department personnel responding to incidents of heightened concern, are wearing increased levels of personal protective equipment (PPE), N95 masks, eye protection, gowns, and shields as necessary.
- The district has given department managers clearly visible and easy-to-read signage to hang at all district facility entry points.

FACILITIES & RESOURCES:

Please refer to the attached report.

Facilities and Resources Manager Report

Cross Town Trail- Windsor Blvd

This trail runs from Windsor Blvd bridge to Shamel Park. Willow tree branches and vegetation had covered a large portion of the trail making it hard for pedestrians to walk. Facilities and Resources Staff with the assistance from a tree contractor trimmed back branches, chipped vegetation and mowed the side of the trail with a tractor and mower.

West Santa Rosa Creek Trail

This mile long trail is located on the western part of the Fiscalini Ranch and CCSD open space properties. Coyote brush, willow branches and vegetation were encroaching the trail. Facilities and Resources Staff with the assistance from a tree contractor trimmed and chipped the branches and mowed the side of the trail.

Cross Town Trail- Hwy 1

This trail runs along Hwy 1 from Windsor Blvd to Cambria Dr. It is an asphalt paved trail. Willow tree branches were encroaching through out the length of the trail. This trail is used both by pedestrians and bikers. Facilities and Resources Staff with the assistance from a tree contractor trimmed and chipped the branches.

Pedestrian Bridge

This trail and bridge are located between Main St. and east Fiscalini Ranch Preserve. It is located next to the Black Cat Restaurant and the Bike Kitchen. Willow branches had taken over most of the bridge and had completely covered the temporary waterline that runs over the bridge. This work was contracted out. Willow branches were cut and chipped and side of the trail was weed wacked.

Connector Trail-Moonstone Beach Dr.

This trail is located on Moonstone Beach Dr. It runs from Windsor Blvd x Moonstone Beach Dr. to El Colibri Hotel. Tree branches were blocking trail access. Facilities and Resources Staff cut and chipped encroaching vegetation.

HWY 1 x Cambria Dr Encampment Update

- On January 6th of this year multiple encampments were cleaned up on CCSD property. Facilities and Resources Staff received assistance for the clean up and eviction of occupants from the SLO Sherriff Department, SLO County and a contractor.
- The pictures at the top show what the camps looked like as well as the approximate location.
- Facilities and Resources Staff has continued to monitor the location since the January clean up. No encampments have resurfaced in this area since the clean up.
- The pictures at the bottom taken late September, show what the area looks like now. Willow trees are growing in nicely and berry, poison oak and grasses are starting to fill the ground.

Dog Park

- During a recent site visit at the Dog Park, Facilities Staff noticed that some of the seats and benches at the Park were in bad shape. These benches and chairs were brought over from the old Dog Park location on Main St. years ago. They were made out of plastic and were sun baked and cracked from years of use.
- Facilities and Resources fabricated, painted and installed 3 picnic style benches at the Park. Two were placed in the large dog area and one in the small area. The wood for the benches came from left over material from previous Department projects.

Dog Park

- The above pictures show some of the additional improvements made to the Park. A porta potty and handwashing station is being donated by Harvey's Honey Huts for use at the Park. Harvey's is also cleaning the portable restroom on a regular basis at no cost.
- A concrete commercial trash can was also placed next to the handwash station. These trash cans were previously used on Main St. When they were replaced with the nicer planter style trash enclosures a few of these trash cans were saved for future use.
- Facilities and Resources Staff continues to refill two 120 gallon water tanks. The water tank in the larger dog area is refilled 2-3 times a month while the one in the small dog area is refilled 1-2 times a month.
- Earlier this year, Friends of the Fiscalini Ranch planted native plants and trees around the Park. Money for the trees and supplies was paid from a Beautification Grant from SLO County. Most of the trees and bushes are doing well with an approximate 90% survival.

Fiscalini Ranch Preserve Forest Work

- During the month of September Facilities and Resources Staff worked on three forest projects on the Preserve. I reported on the first 9 acre area by Victoria Way last month.
- The second project was located between the Creek to Forest Trail and Ridge Trail. Many of the trees in this 4 acre area were infected with gall rust. The Monterey Pines in this area were planted shortly after the Ranch was acquired by Cal Poly volunteers.
- Friends of the Fiscalini Ranch Preserve paid for a biologist to conduct a survey for birds and mammals prior to the pruning and clean up work. FFRP also paid for a contractor to assist Facilities Staff in conducting the work.
- Attached are pictures of gall rust on a tree, pine trees shedding their lower branches and after pictures of the work.

Fiscalini Ranch Preserve Forest Work

- Third project was located on the forest section of the Ridge Trail.
- During the late January storm, a number of Monterey Pine trees were blown down along this trail.
- Friends of the Fiscalini Ranch Preserve paid for a biologist to conduct a survey for birds and mammals prior to the clean up work. FFRP also paid for a contractor to assist Facilities Staff in conducting the work.
- The top pictures shows Facilities and Resources Staff and a Contractor performing the work.
- The below pictures show the clean up work in one area where wood chips are evenly scattered through the forest floor. The second picture shows very little ground disturbance in the clean up area.

Public Record Requests and Responses

The District responded to two (2) Public Record Requests since September 9, 2021 by the following citizens:

08/23/21 Elizabeth Bettenhausen – I request the water usage units (ccf) for CCSD vacation rental customers for May-June 2021. [Please confirm receipt of this Request. Thank you.

On 9/1/21, the CCSD responded to Elizabeth Bettenhausen's 08/23/21 Public Records Request with the following:

Thank you for following up on your request. It is on my calendar to respond to you by the 10 days (September 3rd). However, extracting the information is taking longer than expected. A ten (10) day extension until September 13, 2021 is needed to continue to search our files. You will be notified if records have been identified and are available earlier.

On 9/13/21, the CCSD responded to Elizabeth Bettenhausen's 08/23/21 Public Records Request with the following:

Attached please find the document responsive to your request.

At this time, the CCSD has adequate resources to meet its cash commitments. Staff will continue to be frugal in purchases, postpone non-critical purchases and carefully monitor their respective budget(s).

Staff submitted a reimbursement request for COVID-19 costs to FEMA. The next step in the process is for FEMA to determine if the costs submitted are eligible for reimbursement, which continues to be under review. Staff will report on the outcome as information becomes available.

In late January 2021, CCSD facilities and equipment were damaged by the significant rain and windstorm activity. Staff will work with the County of San Luis Obispo Office of Emergency Services and the State to recover eligible costs.

NEW FINANCIAL SYSTEM UPGRADE - STATUS

Staff and the Tyler Ad-hoc Committee have continued routine conference calls with Tyler Technologies, in developing the next steps required for implementation. During the month of September 2021, the Budget module was migrated into business practice. The Fixed Asset module was previously configured, and staff will be migrating into business practice during the month of October 2021.

ANNUAL AUDIT – STATUS

At the September 9, 2021 Board of Directors meeting, the Board approved amendment no. 2 to the Moss, Levy & Hartzheim agreement. In early November, staff will work with the Independent Auditor to complete the fieldwork necessary for the FY 2020/2021 audit.

Utilities Report for October 2021

Department Activities for the Month of September

Wastewater Treatment Plant (WWTP)

Plenty of plant maintenance occurred in September. The crew did a great job making repairs, cleaning, and organizing the grounds. Influent pump #2 required a bit of attention this month. This pump helps bring wastewater from the collection system into the plant for treatment. When operators Toni and Tim took the pump apart, they found the motor bearings were worn and in need of replacement, as well as the rotating assembly. While it was apart, they also rebuilt the motor adjustment stand and gave it a fresh coat of paint.

Our electrical controls contractor, Tough Automation, came out and cleaned up the influent flow **Programmable Logic Controller (PLC)** which is located where all the sewer flows enter the system (headworks). The influent flow signal is now connected to Supervisory Control and Data Acquisition (SCADA) at this location. Previously, the signal traveled underground all the way to the operations building on the other side of the plant. The reduction in carrier line eliminated the communication trouble we were having with signal.

Figure A - Influent Pump #2

Figure B - Influent PLC before (left) and after (right)

Collection System

Sewer line cleaning and jetting continued in September. Figure C shows root intrusion pulled from the collection system. Collection system maintenance prevents blockages and sanitary sewer overflows.

Crews have begun manhole maintenance in preparation of the wet season. A new product has been obtained to seal manholes to prevent Inflow & Infiltration during storm events.

Tech Talk Topic – to be continued next month

Water Department

With the help of the **Fire Safe Council**, dead trees were removed at the Liemert Tank site at no cost to the CCSD. Seven trees were removed over the course of three days.

A disinfection chemical tank at SR4 was discovered to be leaking into the secondary containment. The CCSD's chemical contractor, Brenntag, maintains all District chemical tanks and made repairs to the tank at no additional cost.

New upgraded radios were installed at the Pine Knolls tank site and Rodeo Grounds to improve communications for both the Water and Wastewater Departments.

Several distribution system leaks were repaired in September, including leaks at St. James, Weymouth, Hartford, Moonstone Beach Drive, and Coventry.

Figure E - Solar-powered Relay Station

The Department's solar-powered relay station experienced another theft this month, prompting replacement of a stolen panel and relocation of the panel mount to deter future theft. This has been a recurring issue at this location and has already resulted in increasing the enclosure area and installing privacy screening on the fence. Additional security measures are also being considered.

Water Supply Status

As of September 30, the CCSD has diverted 38% of the annual San Simeon Creek allocation and 51% of the annual Santa Rosa Creek allocation with 73% of total production coming from the San Simeon Creek aquifer. San Simeon Creek well levels are now trending just above average (see attached charts). Additional well level data and production summary reports are available on the website at www.cambriacsd.org/water-data.

Water Reclamation Facility

In September, the Reverse Osmosis (RO) media was moved to the WRF site in preparation for installation. They have been stored at the WWTP in factory packaging since 2019.

Staff focused on the third stage RO train for maintenance in September. Stainless steel air lines were purged of condensation and new air filters were mounted. Several of the pneumatic valves are failing or operate too slowly for anticipated processing needs. Two valves were reconditioned, but the others are slated for replacement.

Staff received training on how to remove and repair media in the micro filtration train. Current membrane integrity testing shows no need for re-pinning. This train is in very good condition and continues to be preserved via recirculation of potable water to keep media wetted.

Division of Drinking Water District Engineer, Jeff Densmore, accompanied by the Regional Water Quality Control Board's James Bishop, completed a site inspection this month. This was Mr. Bishop's first site visit since taking over jurisdiction of the WRF.

Instream Flow Study and Adaptive Management Plan

Our environmental biologist, Cindy Cleveland, from Cleveland Biological has been performing our Adaptive Management Plan (AMP) monitoring in the riparian reaches of the Van Gordon and San Simeon Creek. These surveys include observations of red legged frogs, tidewater goby, riparian vegetation, etc. and are used to establish a biological baseline. The data from both Cindy Cleveland and Todd Groundwater's Gus Yates will be used to complete Task 2 of the Instream Flow Study. This data will also be used to request AMP concurrence letters from resource agencies, as required by SLO County in their information hold for the WRF's CDP. The current bi-monthly monitoring reports from August showed environmental variables are following seasonal, natural changes.

The Task 1 Instream Flow Study has started with a kick-off meeting in mid-September. Stillwater Sciences is completing their historical document review and we are currently assembling the Technical Advisory Committee.

Conservation & Permits

Water Supply & Demand

Water consumption continues to trend below average thanks to the declared Water Shortage Emergency. All customer categories have reduced consumption compared to previous years' July-August billing grand totals.

Utilities staff continue to monitor water shortage indicators and recommend remaining at a Stage 4 at this time. Stages 1 through 5 are currently represented by each metric, as illustrated in the table below. Although well levels historically begin to rebound at the end of the dry season, the gradient continues to flatten until the Lower San Simeon Basin is fully recharged.

In September, Utilities Department's program manager, Melissa Bland, participated in a two-week Qualified Water Efficient Landscaper (QWEL) course and sat for the QWEL exam. Melissa successfully passed and is now a certified QWEL. This certification will assist the Utilities Department in auditing landscapes in Cambria, both residential and commercial, to ensure irrigation systems are using the least amount of water possible to maintain healthy, sustainable landscapes.

Also this month, staff received the 50% cost share from U.S. Bureau of Reclamation to offset the Flume Smart Water Sensor rebate program. To date, the CCSD has issued 233 rebates throughout the system. One benefit of this rebate program has been access to Flume's Utility Portal, which shows all rebate participant's real-time water use data. Reviewing high water users and random audits of accounts has resulted in several leak detections and reduction in use. Flume rebates are still available at www.flumewater.com/ccsd.

Staff continues to ramp up conservation outreach and has begun to launch Water Use Efficiency Walk-Throughs (previously called water audits). These free water-use surveys identify water savings potential in homes and businesses. In September, three walk-throughs were completed, including one requested due to a leak identified through Flume. The leak was discovered to be on the customer's service line between the meter and the house. It was repaired within 48 hours of the survey, saving the customer approximately 300 gallons of water loss per day.

Permit counter activity for the month of September includes the following:
